

D&B Direct for SAP Ariba Supplier Risk

Proactively identify vendor financial distress to mitigate supply chain disruption

D&B Direct for SAP Ariba Supplier Risk provides Procurement, Strategic Sourcing, and Supply Risk Managers with access to enriched data and predictive insights to help them identify supplier financial stress and anticipate potential disruption in time to make adjustments and maintain supply chain continuity.

KEY BENEFITS AND FEATURES

Enhance and Centralize Supplier Risk Monitoring

Direct integration of Dun & Bradstreet's global data into SAP Ariba's Supplier Risk platform allows for easy access to proprietary commercial insights, putting actionable information into the right people's hands, allowing them to proactively make key decisions to help manage vendor portfolios and mitigate risk.

Simplify Ongoing Monitoring

Maintain a consolidated, current view of your supplier portfolio and easily take a systematic approach to monitoring vendors' financial health and reviewing potential risk on an ongoing basis. Predictive financial information from Dun & Bradstreet's Data Cloud is pushed directly to SAP Ariba Supplier Risk and integrated into Supplier Risk financial scorecards, minimizing time and effort spent obtaining insights.

Customize Scorecards for Risk Appetite

Easily revise field configurations and adjust the weights for each score or rating that contributes to financial risk exposure. You can also drop a score from the scorecard or emphasize one more than others, as well as add custom fields.

In today's unsettled global economic and trade environment, a myriad of risks threatens organizations' supplier portfolios.

Generate Reports

View financial risk at the supplier portfolio level, with the ability to drill down to detailed risk profiles for individual suppliers, and quickly create custom reports to share with stakeholders across your organization.

Benefit from Up-to-Date Financial Insights

Access natively embedded predictive commercial risk indicators from the Dun & Bradstreet Data Cloud, which offers the world's most comprehensive set of business decisioning data and analytical insights. It provides insights on hundreds of millions of businesses and other commercial entities across the globe, with data from tens of thousands of sources, tens of millions of websites, and crowd-sourcing/validating initiatives. Dun & Bradstreet continuously monitors its vast number of sources for changes that impact information in the Data Cloud, verifies changes, and makes updates accordingly.

DUN & BRADSTREET PREDICTIVE INDICATORS

D&B Supplier Evaluation Risk™ (SER): Predicts the likelihood that a supplier will cease operations without paying all creditors in full, or obtain relief from creditors under state/federal law, over the next 12 months.

D&B Supplier Stability Indicator™ (SSI): Predicts the likelihood that a supplier will file for bankruptcy, cease operations, or become inactive over the next 3 months. The SSI is developed exclusively on known suppliers in the Dun & Bradstreet Data Cloud to meet the specific needs of supply management professionals.

D&B® Rating: Provides an indication of credit worthiness and consists of two parts. Financial Strength: an indication of firm size based on employee size or financials. Risk Indicator: an overall evaluation of creditworthiness based on information available such as trade payment history, length of operation, employee numbers, and financials.

D&B PAYDEX® Score: Provides a unique dollar-weighted numerical indicator of how a firm has paid its bills and is a proprietary measure of historical trade payment performance based on trade experiences reported to Dun & Bradstreet.

D&B Financial Stress Score (National Percentile): Predicts the likelihood that a business will seek legal relief from its creditors, cease business operations without paying all its creditors in full, voluntarily withdraw from business operation and leave unpaid obligations, go into receivership or reorganization, or make an arrangement for the benefit of creditors over the next 12 months based on information in the Dun & Bradstreet Data Cloud.

HOW IT WORKS

As an SAP Ariba Supplier Risk client, you will need a D&B Direct Plus subscription for Supplier Risk Assessment (CMPSRA) with monitoring. To activate and access D&B financial risk data, input your D&B-issued API key directly into SAP Ariba Supplier Risk. Select specific suppliers individually or in batches, configure the scorecard treatment of Dun & Bradstreet's predictive risk indicators, and view the data.
